## **THE STEEL MILL**

**December 2006**

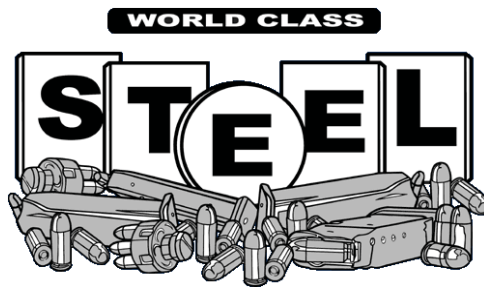

Dear Shooters:

As 2006 comes to a close and the Holiday rapidly approaches, the staff of World Class Steel would like to pass along a few items of information to all the shooters who have made 2006 a banner year for the World Class Steel organization.

December 3<sup>rd</sup> (1<sup>st</sup> Sunday) will be the last Knockdown Steel Match for the 2006 Season. December 9<sup>th</sup> (2<sup>nd</sup> Saturday) will be the final Match for Static Steel for 2006. World Class Steel will begin the 2007 season in April on the 1<sup>st</sup> Sunday with Knockdown Steel. Usually the spring sees World Class Steel hosting Knockdown Steel on successive match days to let the shooters practice for the knockdown steel match held at PSA in Pa. If you wish us to once again have an additional day or two for practice for you please let the staff know or send us an email.

This year proved to be a truly extraordinary year for World Class Steel thanks to the participation of you, the competitor and you the ROs and workers. Without each of you the staff of World Class Steel would not be able sustain the monthly practice matches and the 2 major matches namely, "Speed on Steel" in June and Fields of Steel in October. And of course it goes without saying that these major matches would not be the matches they are without our generous and wonderful sponsors. When you have a free moment this winter please visit the World Class Steel website and click on our sponsors page and send a short note to them thanking them for their support of World Class Steel. That small thank you from the shooters means a lot to our sponsors who have supported us thru the years.

This year also saw the start of the WCS Carbine Division for Knockdown Steel. This came about thru the competitors suggesting it to the staff and then helping us with the testing and organization of the two classes (Carbine 10 and Carbine plus 10) in the division and the eventual inaugural day at the 2006 Fields of Steel match. Scoped and iron sights shot heads up in the afternoon session during the shotgun match. The staff would like to thank all of you who helped getting this new division up and running this year. If you have any ideas, please let us know about them, they could lead to some great times on the range.

2006 also saw World Class Steel have a \$2,500.00 bonus in addition to the normal cash payout and 13 guns at the Speed on Steel Match along with the Fields of Steel Match having 12 guns on the raffle table for the shooters along with a cash payout. As John P always says "World Class Steel, oh, that's the match that gives away guns". And this year really heard that statement ring true John. Oh and by the way John if you happen to read this we all hope you are doing fine and getting well. John we all miss you on the range, hope to see you back soon. In closing the staff and I would like to wish you a Very Happy Holiday Season and all the very best in 2007.

Sincerely,

*John Soltesz*

John Soltesz,  
WCS Match Director
